

Application: Haiku	
Affected Role: All Haiku Users	
Revision Date: 6/9/2023	
Epic Version: May 2022	

This tip sheet is for providers who may work at more than one organization that uses Epic and will need access to more than one environment.

## Try It Out

- 1. Download Trinity Heath's configuration file from the second step of the mobile webpage.
  - Mobile Apps (trinity-health.org)
- 2. When in the application, the text at the top of the login screen shows which environment the application is pointing to.
- 3. To switch to another health system, select the environment at the top, which will display a list of configurations.
  - In the screenshot below, select "FS Build"
- 4. Select the appropriate health system from the configuration list.
